

## Leisure day for #IMSTECHNOLOGIES employees and families in Genoa

Last October 23rd more than 220 people among Coeclerici's Industry Division employees and their families spent a leisure day in Genoa. A large number of colleagues from the premises of Calcinate, Seriate and Casale Monferrato participated enthusiastically to the initiative, which included a visit to the Galata Museo del Mare and the Aquarium of Genoa, as well as a lunch all together with a splendid view of the city. It was a very pleasant day and also an important opportunity to consolidate their team spirit, which makes them very proud to be part of Coeclerici Group.
